

THE DOCTOR'S TEACHING CHARITY

Prepared for The People

INTRODUCTION:

American Peoples Coin (APC)

My name is Dylan Clarke, I am the soon to be manager of The Doctor's Teaching Charity and the creator of this Token. Raymond Dew Soon to be (CEO), We will be incorporating within 7-11 months. We live at 4 Tabrett street, West Kempsey, NSW 2440, Australia. We both Have Asperger's and care about all people no matter where they are from and the future of this planet.

I made this Token to help provide relief For the Native American People and to Fund our business ventures in which we will always give at least 30% of everything We earn to help others,

Raymond's Facebook page is <https://www.facebook.com/iiithedoctorlll>

Raymond Dew-

- I have seen suffering in this world that I can no longer Ignore, us as well, having autism and severe anxiety, We must act now
- 30% of everything we ever earn will go to helping others
- We are extremely dedicated to this goal
- I have incredible skills in Cryptocurrency and anything Technology related

Our Initiative for this token:

American/Native Investment.

Our main goal for this token is to invest in Indigenous communities in every aspect of their lives, seeking an end to Indigenous poverty and improving the lives of Americans. we will be petitioning the U.S. Government to put an end to Reservations as we believe that the concept of reservations was founded on the grounds of racist ideologies and is therefore irrelevant in our modern society.

Wikipedia article: shorturl.at/ctyX2

Excerpt from the Wikipedia article above: "The goal of the reservations was to segregate the Native Americans from white settlers"

So you can understand how this is a problematic system to have in place, reservations are a failed system almost akin to Jewish ghettos used during World War II in Europe, the conditions in which some American citizens live because of the colour of their skin is a stain on the American constitution and the values for which it stands.

We need a new level of understanding to raise consciousness and for Mankind to evolve and be more understanding of each other's differences. We believe the United States Government should aim to fund Indigenous learning programs designed to teach young students that Indigenous history is American history.

We propose that the Schools introduce Indigenous languages and culture as an optional national curriculum for young students, we believe that the Indigenous youth should be taught that they are as much of an American as anyone else, they have the right to be patriotic, proud of who they are and should be able to meld with mainstream American culture and accepted as equals whilst being distinct.

Part of our investment will be in suicide prevention programs, according to The Office of Minority Health, as of 2019 suicide was the second leading cause of death amongst Native American and Alaskan Native teenagers.

30% of the profit from this token will be going directly to American programs and the community to fund goals such as these.

Yours faithfully, Dylan John Clarke.

There are only 100,000,000 Tokens minted, We look forward to working toward this goal as well as our others and supporting as many people as we can. We are developing a few coins for each cause :)

(CEO)Introduction:

My name is Raymond Dew, (The Doctor), I Am The soon to be CEO of The Doctors Teaching Charity, My Business Partner and 40% owner of this company Is: Dylan Clarke

URP - is designed to provide relief for civilians during the war and the recovery after, people do not deserve to suffer we're all equal. 30% of sales will be sent to #helpbothsides 15% to Ukraine and 15% to Russia of all profits

My Personal Facebook page is <https://www.facebook.com/iiithedoctorlll/>

I have a part of my ID and my whole Home Address On There :) this is as trustworthy as it gets, visit my website to read more and hopefully, we can help heal the world a bit together.

The Token is on TRON Blockchain

(UPC) is for a very good cause, people are people and Russian lives are just as valuable as anyone's, they do not deserve to starve, because of their government and in my opinion cruel sanctions put on them by the west, people are suffering people just like you, not the military or Putin, the people who are brainwashed by their government like all people in every country.

The Ukrainians are suffering a brutal and unprovoked attack on a scale of which hasn't been seen since world war 2, the fear they would feel trying to get to sleep thinking they could die at any time or lose their children, this is not only military forces fighting each other it's military killing children and innocents, that fear would be beyond anything, I will #helpbothsides as much as I can, by providing anything they ask me for within the budget.

I also want the rest of the world to adopt this coin as it will go to great public services and make you a lot of money too :)

It's Now Available to trade Slippage tolerance is the same both ways

The contract address is: 0x9F2Ab8a5Afd8b63b280DfDb8c81d72E75E46e077

I Have locked the liquidity for this token for 1 year and as soon as I figure out how to lock the TRON tokens (if possible) they will be locked for 1 year at well, I've been having trouble finding a site for Tron, I've locked BNB but I can't seem to find a liquidity locker for Tron, if you know of one send me a link, I will not be fooled into sending money to scammers and I have made that very clear to them in communication over telegram, I can't be threatened into sending money, some of the things I've seen since starting this company is beyond belief the cold and callous attempts of people to rob me of all I have knowing the goals I have and the position I'm in with what has happened to me, as far as I'm concerned they need the death penalty for doing these things to people.

You can count on me, I know it's hard to trust people because of them but I have released all my personal information that can not be used against me eg. I wiped the numbers off my ID card on Facebook. I won't lie to you and we will help the people we said we would, this could turn out to be a great opportunity for you, this coin and the Ukrainian Russian Peace Coin, which is on the Tron blockchain, APC is on the BNB smart chain

We believe with sound calculation our Token may reach the value of between \$0.001-\$0.03 per token by 2023 and up to \$1 per token within 10 years.

I want to be completely transparent so much so that I have supplied all my personal details that can be verified but please respect my privacy and honesty, let's help the world together :)

We look forward to working with Our Community and supporting as many people as we can. We are confident that we can meet the challenges ahead and stand ready to partner with you in delivering an effective Currency and Charity.

So to The MOON...
